

Quality & Environmental Policy

The Quality & Environmental Policy of EVENT PLUS is defined in accordance with the requirements of its clients, the applicable legislation, and its business principles.

The approach of EVENT PLUS concerning Quality and Environmental Management is expressed through the Company's Integrated Management System, which serves as a framework for the continuous improvement of the services provided by the Company as well as its environmental footprint.

The main guiding principle for implementing the above is the fulfillment of the requirements and expectations of the Company's identified interested parties and the enhancement of its environmental performance.

The fundamental principles, as expressed within the processes of the Company's Integrated Management System, are:

- Continuous customer support even after service delivery and constructive collaboration with all partners.
- Clearly identifying the requirements and expectations of interested parties and measuring their satisfaction.
- Identifying potential risks arising from the Company's activities and taking measures for their prevention/mitigation.
- Ongoing training and education of personnel.
- Investigating the causes of non-conformities or complaints and further defining corrective actions as the primary mechanism for continuous improvement.
- Raising awareness among all employees regarding Environmental Management and Environmental Protection issues.
- Communicating data and information about its Environmental performance to relevant bodies, partners, and the community upon request.
- Providing the necessary resources for the implementation of the Integrated Management System to achieve the Quality and Environmental Objectives and Goals.

- Identifying and assessing the Environmental Aspects of its activities.
- Recognizing the Environmental Impacts arising from Environmental Aspects and taking the necessary measures to minimize them.
- Continuously improving its Environmental performance and preventing environmental pollution.
- Monitoring and measuring Significant Environmental Impacts and improving its environmental footprint.

The Company's Management is committed to ensuring the following:

- The Quality & Environmental Policy is known and understood both internally (staff) and externally (website) and is reviewed for its continuous relevance.
- Providing all necessary resources for the continuous and uninterrupted operation of the System and its ongoing improvement.

It is also committed to complying with the Laws and Regulations governing its operation.

The Company's Management has appointed the General Manager, Ms. Anna Gilli, as the Responsible Person for the Integrated Management System, assuming the duties of supervising, maintaining, and developing the Integrated Management System.
